

Linewize Product Suite Overview

The most comprehensive K-12 student safety platform on the market

Linewize has built, merged, and acquired technology solutions to create a united product suite with a singular mission: to protect every child's digital journey at school, at home, and everywhere in between.

School Manager

Hybrid cloud filtering

School Manager is a student safety-focused filter that enables IT administrators to build a low-maintenance filtering ecosystem. School Manager supports end-point operating systems and offers robust reporting.

Classwize

Classroom management

Classwize provides teachers with greater ownership over their lesson plans with real-time screen visibility. Teachers can spot distracted students, refocus attention, open and close tabs, and much more.

Linewize Monitor

Student threat detection

Linewize Monitor analyzes more risks in more locations and across more categories than any other solution. It uses AI and human moderation to conduct a full-screen analysis of flagged online behavior.

Linewize Pulse

Wellbeing & culture analytics

Linewize Pulse is a student wellbeing platform that enables students to seek help via 60-second weekly check-ins, empowers districts with de-identified data, and helps schools foster a culture of inclusion and support.

Community

Qustodio, Online Safety Hub and Digital Education

Community product helps districts educate their community on digital safety through our Qustodio parental app, tailored Online Safety Hubs for school communities, and educational resources.

About Linewize

The Linewize ecosystem is a unique response to the challenge of today's connected learning environments. We align a series of products to help districts stay in regulatory compliance, get the most out of their purchased technology, keep kids cyber-safe at school, and impact your parent community by assisting them in raising good digital citizens.
